Upon her arrival she found that robbers had entered her house and completely ransacked the place. Money, jewelry, silverware and clothing to the amount of several hundred dollars were stolen.

The record of Fourth Assistant Postmaster General Maxwell, in removing postmasters is, that for the year ending December 30, which was added to Tuesday by 28 changes in four thousand postmasters. This beats Headman Clarkson about three hundred for the same period.

There is considerable complaint among German immigrants, which we recently arrived at. It is more than a number of their fellow travelers were submitted to them in the past year, for notes of the same in the south.

MYSTERY.
Seals the Lips of the Cutler Cowels Captain.

A Dead Thing. Naval Officers Connected With the Revenue Service Freely Interfere—A Suspicion That War Has Begun in Hawaii.

SAFETY.—Newspaper men are hot because of the treatment they received at the hands of Capt. Munger, the revenue cutter captain. Especially has the revenue officer disgraced newspaper men by his churlishness. As a rule navy men and officers connected with the revenue service cheerfully impart information not in conflict with naval etiquette to newspaper men.

The reason for Munger's action in refusing to allow any communication with his vessel, is probably chagrin at the fact that the sailing of the Cowell from Honolulu here was announced in the newspapers two days before she sailed. Munger made strenuous efforts to conceal the fact that he was going to Honolulu, and even after the newspaper had published the news, he originally denied that Honolulu was his destination.

It is believed here that the Cowell was under control. This wind, however, proved to be a mistake. The wind blew more fiercely than ever, and flames were carried along the remaining portion of the periscope north, devouring the beautiful piece of architecture, nay, nay, the Cowell. From there they spread to the great manufacturers' and liberal arts building, in which there was a loss of thousands of dollars' worth of valuable awaiting transportation or the wharves of the customs office.

It was thought at 9 o'clock that the flames were under control. This wind, however, proved to be a mistake. The wind blew more fiercely than ever, and flames were carried along the remaining portion of the periscope north, devouring the beautiful piece of architecture, nay, nay, the Cowell. From there they spread to the great manufacturers' and liberal arts building, in which there was a loss of thousands of dollars' worth of valuable awaiting transportation or the wharves of the customs office.

FRIDAY, JANUARY, 12, 1893.

Hadrastreet's reports say that more than twice as many mills and factories started last week as shut down in the same time.

The Coronor's Jury in the Louisville and Jeffersonville bridge disaster returned a verdict of criminal carelessness as the cause of the accident.

Work has been resumed this week in a number of large iron mills and other industrial plants, giving employment to several thousand men.

The Wilson tariff bills now being discussed in the House. A vote will be taken on it January 29th. If the Senate would only act more sensibly the country would be better off. But there is not much reason for expecting any such good fortune. The Republicans have already taken the position of obstructivists, and under the abominable rules of the Senate they may be able to block legislation for a considerable while. Those who have broken old rules should be broken, if necessary. This Congress was elected to accomplish tariff reform, and the condition of affairs demands that it shall be done without delay. It is provokingly absurd to allow a sensible rule—not an law—to obstruct the work simply for the sake of preserving a supposed "dignity" of the Senatorial body.

Silver.

The price of silver keeps up pretty well in spite of the fact that the Government has stopped coddling it. The surplus goes abroad and finds a ready market at 70 cents or therabouts an ounce. The people of Colorado already discover that they need go into bankruptcy or be plunged in despair because of the repeal of the silver purchase under the Sherman law. Their silver finds no demand elsewhere, and instead of being loaded in the Treasury vaults, where it is useless and causing an inflation of the currency by the issue of Treasury notes upon it, it goes abroad and has to be paid for in gold or its equivalent in products needed in this country. The exportation of the \$30,000,000 or \$40,000,000 worth of silver bullion which used to be absorbed by the Treasury must needs have a very substantial and happy influence toward establishing and maintaining the balance of trade favorable to this country—National Jeweler.

As to the Tariff Bill.

No matter what we do, or say, a boy will grow up from every ring and lineage, from every job and interest, which is made to see the light of exposure and to feel the hand of reprimand. We came to power not to condone and conserve the corruption of twenty-five years of Republican misrule, but to destroy them. We owe no apology to the Republicans for what we do. They are equally intractable and malignant. The back of the hand to Republicanism—the black flag to corruptionism—is what will make square issues and honest politics most earnestly desired by the people everywhere—and it will save us from the ignominy of half-measures, while it keeps our voters in line.

We are accused of everything from arson to murder. We draw the line at murder; but short of that, the hot end of the poker to a partisan enemy wherever he appears. There was never a situation where the time-serving counsels of cowards affecting a wise and patriotic conservatism, allowing "I dare not" to wait upon "I would," contained so much peril and so little virtue as that which confronts Mr. Cleveland's Administration and Mr. Wilson in the House of Representatives, at this time; and the only road to safety and honor is that sublime intrepidity which lays its lines in justice and truth, shuns its eyes and defies the consequences. He sure that if we are right—and we think we are—they will hear us. But, if we are wrong, then we can still go down, like brave and honest men, fighting for our new's sake!—Henry Waterman in Contiller Journal.

W. M. CONLEY, Dr. Editor.

INTERESTING LETTER.

A Big Sandian in Arizona,
Phoenix, Arizona,
Dec. 23, 1892.

F. F. News: In my last I promised a more thorough discussion of this climate for consumptives. This much dreaded disease is responsible for over one seventh of our death roll. The Bible teaches us that it "was appointed once that all men should die." But how natural it is for us to want to hang on to the hind end of time. I never was much of a believer in that old hymn "I would not live always, I ask not to stay." To those of your readers who are contemplating a change I would say the climate of Central Arizona is especially adapted to those suffering with pulmonary phthisis, or what is known as quick consumption. All forms of phthisis pulmonalis are benefited here. The air being drier than any part of the United States (30% humidity) and supercharged with ozone the effort to inspiration is easily expended that life is soon restored, and the diseased parts begin a healing process. I could advise a man with one lung to come here, as you can live very comfortably with but one. But persons with less than one lung had probably better make their will than a trip west. Asthma and kindred diseases are speedily recovered from. All throat and lung troubles receive the greatest benefits here in the summer. I have reported to you that the sunnies here are very hot. So they are. There in the river bottoms and especially are they hot in Phoenix. But up on the mesa the summers are very much tempered and the nights are comfortable.

I can give testimony that it is hard to part so far from home, kindred and friends, but perhaps life is worth living, and if so I would beckon you this way. The better plan for health seekers that are coming here, is to come in February. Provide yourselves with a good and sufficient tent, folding cot, and blankets. This you can bring as baggage. You can then provide yourselves here with other necessities and camp at your will. Please remember this, that I am giving you the plan by which you will receive the greatest health benefits from this climate, and also the cheapest plan for living. Hundreds of people do this, even whole families. Don't forget that I only advise those to come here who are in search of health. The better plan for health seekers that are coming here, is to come in February. Provide yourselves with a good and sufficient tent, folding cot, and blankets. This you can bring as baggage. Address: HARPER & BROTHERS, New York.

Cough leads to Consumption, Kemp Balsam stops the Cough at once.

Hon. Wm. Linnsey was chosen by acclamation by the Democratic caucus to succeed himself as United States Senator from Kentucky. This is as it should be. He is acknowledged to be one of the ablest men in the Senate.

Carnegie and the Foreigners. Andrew Carnegie, after making a protest against the Wilson Bill as being un-American, has gone back to his castle in Scotland. Mr. Carnegie's intense Americanism drives him to this country occasionally to warn us against the foreigners.—St. Louis Republic.

On account of this being a health resort, trades, professions of all sorts, and all business is very greatly overdone. The money making business here is confined to the money loaner, the doctor and the undertaker.

All publications that are gotten out here in the west for eastern people to read are as bright as a headlight and as gentle as a moonbeam. But look out, they are loaded to the muzzle every time, and if you touch one will think a thief in a hoier of the infernal regions has collapsed, and you will be looking around for your head.

Well, if you have it in one corner of your eye to come west you won't rest until you do, no matter what I should say about it. So the earlier in life you start the longer you will have to live—after you get back. Before you start let me whisper a little secret to you. It takes money to make the filly go out here.

The green fields, fine cattle, mountains of hay, and limpid waters coursing along every roadway, render this valley very pleasing to the eye. So does the honey in the bee-gum. Two per cent money per month on these farms is like a man chewing rubber shoes for hunger. By the way, there is one business I think would return sweet profit here, and that is bee business. I would ex- formal invitation to Col. ... Preston Borders and George Carter to come down and try their hand. It is said that it takes the same kind of a man to raise bees that it does to raise fish.

Mr. William O-horn, who I reported had an eighty acre farm, acres is a large farm to a nephew of Uncle Clabe. I sometimes led me into his parlor and showed me 265 stands of bees from which he shipped last season thirty-three thousand pounds of extract honey besides what he sold at home. He says of a good season bees will turn off an average of 165 pounds of honey in the comb per stand.

He no doubt this statement now, for William is a loyal member of the South Methodist Church and contributes annually more to its support than any member that will read this article, unless it should be Bro. A. Jackson Lorn.

I have written my last chapter on the climate and agriculture of this valley, and if your readers are not satisfied with the explanation,

let them call on Mr. Linnsey. They will find out that a pure and quality diamond meal is absolutely free. Other things are dearer than your mother in law or your church dues.

SWANSON.

HARPER'S WEEKLY.

Illustrated.

Harper's Weekly is beyond all question the leading journal in America, in its splendid illustrations, in its corps of distinguished contributors, and in its vast array of readers. In special lines, it shines in the bluest order of talent, the men best fitted by position and training to treat the leading topics of the day. In fiction, the most popular story writers contribute to its columns. Superior drawings by the eminent artists, plus its special articles, its "pocket" and every notable event of public interest, it contains portraits of the distinguished men and women who are making the history of the time, while special attention is given to the Army and Navy, Amateur Sport, and Music and the Drama, by distinguished experts. In word, Harper's Weekly combines the news features of the daily paper and the artistic and literary qualities of the magazine with the solid critical character of the review.

Harper's Periodicals.

Remittances should be made by Post office Money Order or Draft, to avoid chance of loss.

Newspapers are not to copy this advertisement without the express order of Harper & Brothers.

Address: HARPER & BROTHERS, New York.

Sold by Druggists.

Man is born of woman, spanked by the fisted nurse, jerked bald-headed by cranky schoolmasters and attended with a select and varied assortment of troubles, says an exchange. He lingers on luxury until his parental ancestors fine him out to begin his battle with the world. He starts a newspaper, his friends promise to support him, but in the hour of need, he finds that promises, like three cent chinneys, are easily broken. If he refuses to be sociable with Tom, Jim and Jack they say he is stuck up, and if he makes intimates of everybody he is courting public favor. He publishes all the news, science, statistics, foreign reports and outlook, they say he is too fresh. He doesn't make a personal of everyone in town they feel slighted, and if he does he will finally run across some man who does not like him or say he is too fresh. He doesn't make a personal of everyone in town they feel slighted, and if he does he will finally run across some man who does not like him or say he is too fresh.

Why experiment when you can have A CERTAINTY? ALL questions on metals, furnaces or analytical work will be readily and conclusively solved by corresponding with us.

The Hartsell Furnace and Refining Co., (Incorporated)

Engineers and Contractors for Nickel-Steel Foundry Equipment and Rolling Works. Estimates furnished upon application. Established 1883.

BIG SANDY NEWS.

FRIDAY, JANUARY 13, 1863.

Her Platform.

"I do not want to vote," she said, "I hate this suffrage man; but I don't want a horrid man. To tell me that I shan't."

Htg Stock at Sullivan & Kise's.

Full weight at Sullivan & Kise's.

Pale dealing at Sullivan & Kise's.

Conley's stock is always complete.

R. M. Brooks was here this week.

Business increasing at Sullivan & Kise's.

Produce of all kinds at Sullivan & Kise's.

All treated well at Sullivan & Kise's.

Miss Gertrude Stonebraker is quite ill.

New goods arriving at Borders & Stewarts.

The watch of Conley's will go in about two weeks.

Mrs. A. M. Hughes is visiting in Ashland and Huntington.

Messrs. Johnson and Horner are expected home tomorrow.

Attorney T. H. Brown, of Cynthiaburg, was in Louisa this week.

Goods reasonable, but must have small profit at Sullivan & Kise's.

Don't put yourself on record for whiskey by your vote on the 22d.

Tobacco cases, perfumes and handsome perfume bottles at A. M. Hughes.

Engraving done free of charge on jewelry and silverware bought at Conley's.

If you want a watch of any grade at a bottom price go to Conley's.

Pelham's Select Noses on the International Sunday School Less sons for sale at Conley's.

Agent W. O. Johnson will be here the latter part of this month to visit friends and home folks.

A. M. Hughes has some fine tobacco goods and perfumery bought especially for the holiday trade.

E. T. D. Wallace was before the circuit court this week in the interest of the C. & O. railroad.

Mrs. L. H. Suddith and children, of Clinton, W. Va., are visiting her mother, Mrs. M. J. Ferguson, at this place.

Col. Northup's appointment as Penitentiary Agent is expected any time now. The Courier-Journal Washington correspondent says it will be made at once.

We learn that only one bid estimate was found for selling whisky in Louisa. This is an argument in favor of the bill. If so little is sold why open a saloon for its sale?

The proper way to treat the liquor business is to vote down the license and inaugurate a systematic and determined fight to extirpate the evil as it may exists.

Messrs. A. M. J. Fitcham and Henry Wadsworth, prominent members of the Mason county bar, were attending court this week. They are attorneys for the C. & O.

We are happy to learn beyond a doubt that a large amount of tobacco will be raised in this immediate section this year. A few farmers are preparing to put in large crops. Charley Hammon, an enterprising farmer living across the river, already has a large force of men at work preparing thirty acres of new land for the production of tobacco. Henry Kendall will plant about thirty acres of Col. Northup's land on the head of Three Mile creek. We have heard of no number of other persons who will engage in the business on a smaller scale. This is certainly very encouraging news and gives promise of a more regular and substantial prosperity. It will give our farmers cash for their labor and a sure market.

The first thing our farmers should resolve upon is to give the closest attention to their tobacco crops and handle it in the best possible manner. A small crop well handled pays better than a large one poorly handled.

Two U. S. Districts for Kentucky.

It is thought that the chances for the passage of the bill dividing Kentucky into two United States' court districts are good. Representative L. M. in speaking of the matter, mentioned the following possible candidates. They are all from this district, of course. Should the bill become a law candidates will not be confined to the Tenth district, when half the state is included.

Granville Ross, charged with robbing the safe of W. T. Evans, was allowed a continuance until yesterday, because one of his witnesses was said to be sick. And then the Judge told the jury they

might go home and see how matters were getting along there, but to come and be here Thursday morning.

The report of the grand jury made through its efficient foreman is quite an interesting document.

The jury was in session seven days, examined one hundred and seventy-one witnesses and made one hundred and three indictments.

The public offices are reported as being in good condition. Here is what is said concerning the hole known as the county jail:

"It is small, poorly ventilated, dark, and does not in the slightest degree meet the demands of our modern civilization and the age in which we live. Of dull Wilson the report speaks truthfully and well, and the other county officials are spoken of in similar strain.

We quote further and are glad to unqualifiedly endorse the statement:

"We also find after a most

rigid and faithful investigation, with all the means at our command, to produce witnesses from every part of the country, that the fallacies of each character is a most valuable fuel, and we should be no regard to our own sense of gratification, as well as that of our entire community were we not to contribute this wonderful improvement to the faithful and kindly discharge of every duty connected with the office of Circuit Judge and Commonwealth Attorney, and the splendid ability and willingness of these two officers to do their whole duty."

The Ross case was begun yesterday morning, and at the time of going to press it has not been finished.

The ordinary docket has had a first calling and the trial of cases will begin as soon as the Ross case goes to the jury.

Tobacco Men.

Three tobacco dealers in Perry county, Ky., were prospecting in this vicinity this week, with a view to locating. They expressed themselves as well pleased with the country and the outlook for success in the tobacco business. One of them, Mr. E. B. White, stated before leaving that he had decided to locate in Louisa and engage in the business of a tobacco dealer and binder. He expects to be here with his family in about three weeks. The other two gentlemen desire to buy or rent farms for the purpose of raising tobacco.

James Albright and family are visiting relatives at Rife's cross roads on East Fork this week.

The weather is still fine for the time of the year and Jack Collinsworth is turning up the black soil.

Another large conveyance of real estate here this week, W. A. Allbright and wife have conveyed their entire homestead to William Hughes and wife, for and in consideration that the latter is to take care of the former their lifetime. The renter is on the lookout for a location for the present year.

Rev. Carter, of the mouth of Maran creek, was smiling on some of our fair ones Sunday.

Enos Marcus began cutting a rail line on the land of David Denefield, but Denefield told Enos to stop and Enos stopped.

Rev. Richard Howard, of Boyd county, Ky., was selling some Baptist Hymn Books through here last week. The medicine agent was also with us.

Sam Short Jr., bought of James Short one acre of Blaine bottom land for \$17.

Van Newsom, of Fall Creek, was up on a visit Sunday and so stated that he was having excellent luck fishing considering the time of the year.

We would like to hear from "Cate" once more. Also from all the other correspondents. Fred Fright give us another of your newsy letters soon.

Most everybody complains of feeling bad and is wishing for cooler weather.

Attorney J. M. Rife came home from court Saturday evening, will return Monday morning. He says the farm work has gone on all right the past week.

COUNTRY GARDENERS.

BUCHANAN.

Last Wednesday week, Dec. 27, 1863, at Ironton, Ohio, Miss Jeannie Burgess, of Richardson, Lawrence Co., and Mr. Thomas Layne, of Blaine, were married, the minister of the M. E. Church performing the ceremony. They were accompanied to Ironton by a brother and sister of the groom. Mr. Layne is a popular and handsome employe of the O. & R. R. White the bride is one of the prettiest and most attractive young ladies in Lawrence Co. She is the daughter of Mr. George Burgess. Both the groom and his lovely wife have the best wishes of a host of friends for their future happiness.

Mrs. Annie Brown, of Zelma, is very low.

The meeting at Rose creek is still in progress, with several conversions.

Married, on the 25th of December, Mr. Alvin Curmite, of Blaine, to Miss Mary Ferguson, of Hubbardston, W. Va.

Miss Alice Wellman and little sister, of Cynthiaburg, were visiting relatives at this place, but returned home yesterday.

Jos Compton visited home folks yesterday.

Mr. T. B. Layne and wife were the guests of Mrs. Belle Plechard, of Cedar Grove last Saturday.

Success to the News is the wish of

M. F. CONLEY, P. M.

Dead Letter List.

The following is a list of unclaimed letters remaining in the Union post office Jan. 1, 1863.

If not called for before Feb. 1, they will be sent to the dead letter office. Please say advertised when calling for any of these letters:

Mary E. Adkins,

Leander Carmel,

Jackson Collingsworth,

Lane V. Garret,

Rev. H. C. Reynolds,

Mrs. Tressie Learle,

Mary Pigg,

John Stevens in care of S. T.

Moore,

J. B. Warren,

Mordecai Wilson,

One cent due on each letter.

M. F. CONLEY, P. M.
